CORDONIQ
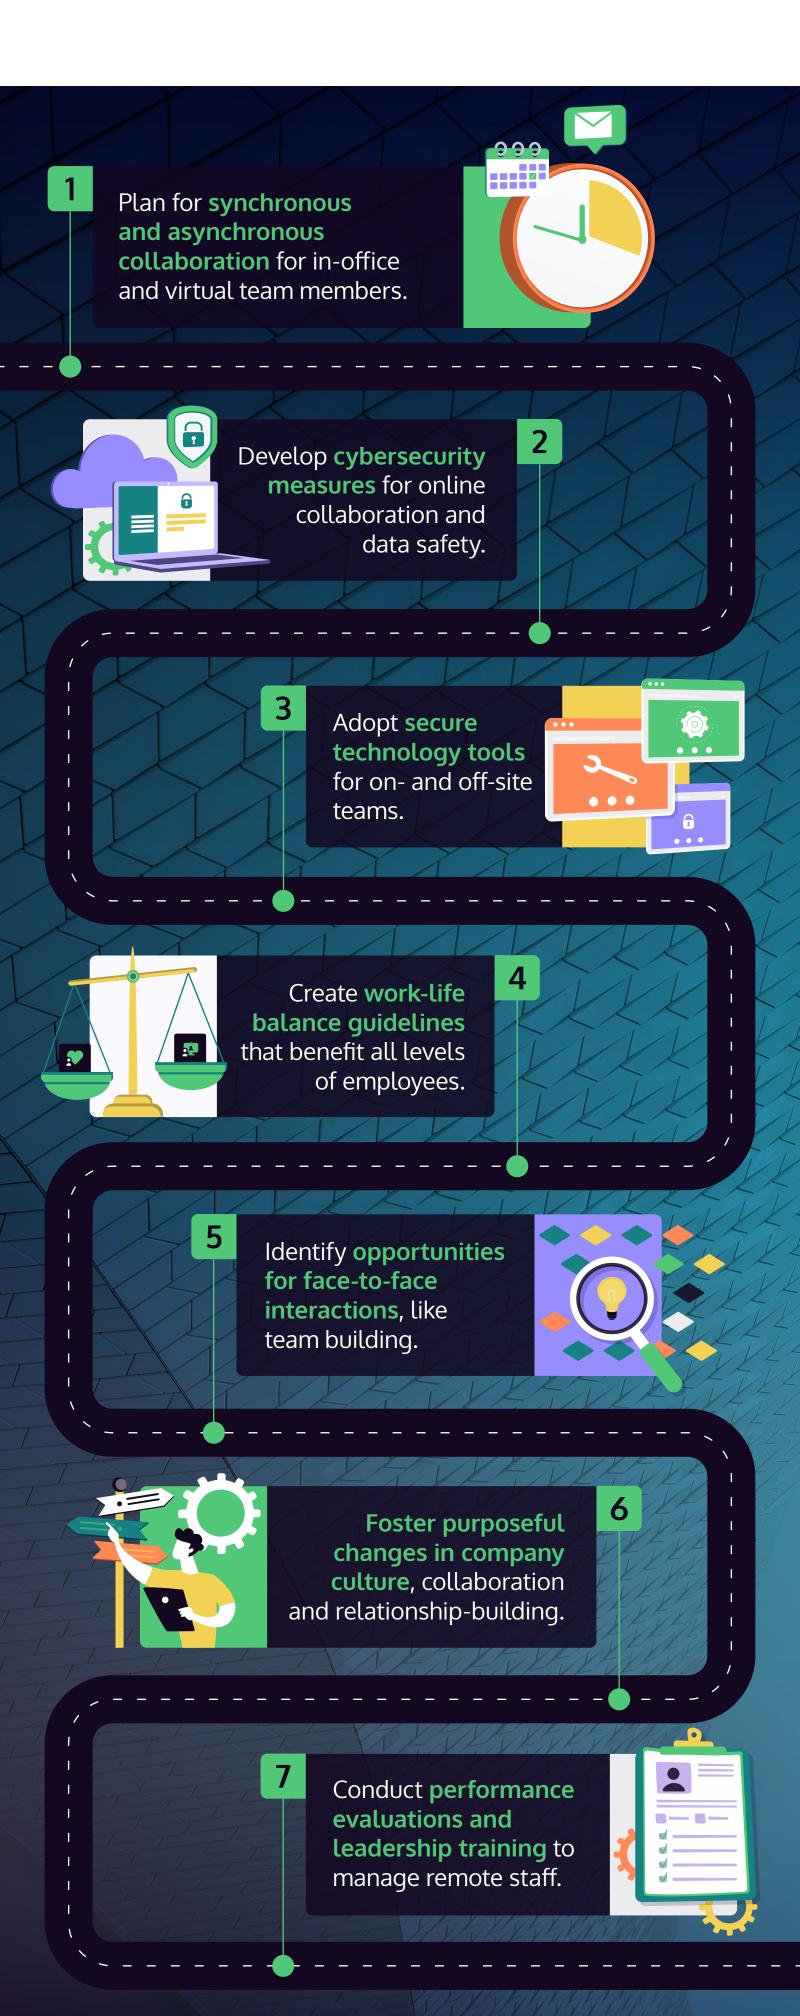

Technology Roadmap for Remote & Hybrid Work

Remote and hybrid work is accelerating. This roadmap covers technology solutions for both:

1 Plan for **synchronous and asynchronous collaboration** for in-office and virtual team members.

2 Develop **cybersecurity measures** for online collaboration and data safety.

3 Adopt **secure technology tools** for on- and off-site teams.

4 Create **work-life balance guidelines** that benefit all levels of employees.

5 Identify **opportunities for face-to-face interactions**, like team building.

6 Foster purposeful **changes in company culture**, collaboration and relationship-building.

7 Conduct **performance evaluations and leadership training** to manage remote staff.
